## Wide Rear View

### Chrome Plating Mirror

High-precision chrome-finished front surface mirror

Can be used for original mirrors with 55~80mm height

- \* Low distortion, high precision chrome glass cutting glare by half in comparison with regular aluminum glass
- \* Practically free from distortion.
- \* Assures non-glareness for safer driving.
- \* Prevents double image reflection.

Code	Size	Type	Weight	Item Size (mm)
BW-762	240 mm	Flat	275g	246 x 81 x 26
BW-763	240 mm	Convex	275g	246 x 81 x 26
BW-764	270 mm	Flat	295g	276 x 81 x 26
BW-765	270 mm	Convex	295g	276 x 81 x 26
BW-766	300 mm	Flat	310g	306 x 81 x 26
BW-767	300 mm	Convex	310g	306 x 81 x 26

\*Pkg size (mm): 350 x 95 x 28; 30 pcs/box

## Wide Rear View

### Aluminum Plating Mirror

Best suitable for dark tinted window.

Can be used for original mirrors with 55~80mm height

- \* Low distortion, high reflectivity (80%) aluminum glass gives twice in brightness in comparison with Broadway chrome mirror.
- \* Anti-scattering glass safety protection
- \* Covers wider views than a existing room mirror to reduce blind spots for safety drive
